

Yoseef Sameh Abdelhalim Mohamed

Junior Data Analyst — Business Intelligence Analyst — AI & Machine Learning

Ashmoun City, Menoufia Governorate, Egypt

Phone: +20 100 403 6432 — Email: yoseef.sameh178@gmail.com

LinkedIn: [youseef-sameh-bedier-871557382](https://www.linkedin.com/in/youseef-sameh-bedier-871557382)

Summary

A passionate Computer Science student at Menoufia University with a strong focus on Data Analytics, Business Intelligence, and Machine Learning. Skilled in Power BI, Excel, Python, SQL, and Machine Learning techniques, with a proven ability to transform data into actionable insights. Continuously developing analytical and technical skills through real-world projects and self-learning, aiming to grow as a Data Analyst and contribute to impactful, data-driven solutions.

Education

B.Sc. in Physics and Computer Science, Faculty of Science, Menoufia University, Egypt (2023–2027)

Expected Graduation: 2027 — Current Grade: Good

Projects

Flight Bookings Data Analysis (Excel)

- Analyzed airline booking data for 50,000 passengers.
- Key KPIs: Completed Bookings (7,478), Average Passengers per Booking (1.59), Average Stay (23 days), Purchase Lead Time (84.9 days), Additional Services Requested (39,545).
- Performed data cleaning, analysis, and dashboard design to visualize booking patterns and service preferences.
- Tools: Excel (PivotTables, Power Query), Data Cleaning, Dashboard Design.

Covid-19 Data Analysis Dashboard (Excel)

- Created a comprehensive dashboard to track Covid-19 statistics: Total Confirmed Cases, Deaths, Recovery, Monthly Trends, Regional Distribution, and Active Cases over time.
- Identified cyclical patterns in Covid-19 waves with peaks every three months.
- Tools: Excel (PivotTables, Charts, Power Query), Data Cleaning, Dashboard Design.

Skills

Data Analysis & Programming: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (Microsoft SQL Server, Joins, Aggregations, Window Functions), Microsoft Excel (PivotTables, VLOOKUP/XLOOKUP, Power Query, Data Cleaning & Transformation)

Business Intelligence & Visualization: Power BI (Dashboards, DAX, Reports), Tableau, Data Visualization & Storytelling

Machine Learning & AI: Linear & Logistic Regression, Support Vector Machines (SVM), K-Nearest Neighbors (KNN), Naive Bayes, Decision Trees, Random Forest & Ensemble Methods, Feature Engineering, Scaling & Outlier Handling, Clustering (DBSCAN, Hierarchical, K-Means), Regression using

ANN (Artificial Neural Network), Bone Fracture Detection using CNN (Convolutional Neural Network)

Analytical & Supporting Skills: Analytical Thinking & Problem Solving, Statistics & Data Interpretation, Data Cleaning & Transformation, Reporting & Dashboard Design

Certificates / Courses

Machine Learning for Data Analysis – NTI Track, Egypt, 2025

Skills learned: Python fundamentals, NumPy, Pandas, Matplotlib, Seaborn, Linear & Logistic Regression, SVM, Feature Engineering, Scaling & Outlier Handling, KNN, Naive Bayes, Decision Trees, Random Forest & Ensemble Methods, DBSCAN, Hierarchical & K-Means Clustering, Regression using ANN, Bone Fracture Detection using CNN

Data Analytics Diploma – Route, 2025

Skills learned: Statistics, Microsoft Excel, Power Query, DAX Functions, Power BI, Tableau, Python, SQL Server

Languages

Arabic: Native

English: Good (Reading, Writing, Speaking)
